2. Though the notice regarding the conversion of our 6½%, 6½%, 5½% Loans into 4% Tax Free conversion Loan 1953-63 was received in this office, late in the evening of the 22nd instant, still we were able to get 3000 copies of the notice printed at the Government Press, Bangalore and issue them to the Head Office and Branches of the Imperial Bank of India, to the Mysore Bank, and to all recognised Brokers in Mysore, Madras, Bombay, Calcutta, Hyderabad and other places on the 23rd August 1934 only though it was a General Holiday. Today, notices are being despatched to all the holders of large blocks of our loans in and outside Mysore, etc.

Arrangements have also been made with the Compiler Mysore Gazette to publish the notice in the Mysore Gazette dated 30-8-1934 and in the subsequent issues both in English and kannada till the scheme is stopped by Government. The Publicity Officer, Bangalore, has also been requested to publish in Kannada and English local news papers, in the space reserved for Government, a copy of the notice in an abridged form (copy enclosed for reference).

3. I suggest for the consideration of Government the desirability of publishing short space advertisements of the conversion in two or three issues of the leading outside papers.

At least one insertion of the short advertisement of our loan on different dates in the following leading outside papers would be enough for the present, and, this it is ascertained would roughly cost us about Rs.800/- with a good display of the advertisement so as to attract the notice of the public. We may consider the necessity for further advertisement later on.

4% Conversion Loan 1953-63

The currency of the rates of cash bonus fixed for the conversion of $6\frac{1}{2}\%$, $6\frac{1}{2}\%$, and $5\frac{1}{2}\%$ bonds into the above loan in Notification dated 23-8-1934 will expire on 31-8-34 and the rates for the next fortnight have to be fixed. We have so far received applications for conversion to an extent of Rs 8,36,000.

The rates to be adopted for the payment of cash bonus for the ~~next~~ next fortnight ending 15th September 1934 have now to be fixed and the rates of bonus proposed for the respective loans are noted below :-

	Bonus at present allowed.	Bonus now proposed.
1. $5\frac{1}{2}\%$ Bonds of 1938	4-2-0	3-14-0
2. $6\frac{1}{2}\%$ Loan of 1940	10-8-0	10-7-0
3. $6\frac{1}{2}\%$ Loan of 1941-51	13-0-0	12-15-0

In the case of these bonds, the offer has not been open for any considerable length of time to the holders, the notice having been issued only a few days back. I have therefore suggested a reduction of only 4 annas in the rate offered for the first loan, where alone receipts have been of some magnitude.

The rates suggested may kindly be approved.

In our notice dated 23-8-1934 issued to the Public regarding acceptance of our State Loan 5½%, 6¼% and 6½% Bonds for conversion to 4% Loan of 1953-63, the subscribers are not given the option of tendering the cash bonus and the interest accrued on their bonds, for conversion to the 4% Loan 1953-63, as in the previous loans.

2. As enquiries from the subscribers are being received regarding this point, I solicit early orders of Government in the matter.

3. If it is decided that the cash bonus or cash bonus and interest should also be accepted for conversion, ^{the} premium at which the 4% Bonds have to be issued has also to be fixed by Government every fortnight along with the rates of cash bonus. Such conversion will be a convenience to the applicants who will have to seek other investments for the cash they received on conversion. Our 4% Bonds are now quoted in the market at 106-8-0% to 107-8-0%.

May be allowed at the prevailing market rate about 107.

I enclose herewith for consideration of Government copy of letter dated 1-9-1934 received from Mr. R. Sundaram Iyer, Share & Stock Broker, requesting to be allowed cash bonus on 5½% Bonds for Rs. 50,000/- tendered by him on 1-9-1934 at the old rate announced in the Notification dated 23-8-1934.

The bonds for Rs. 50,000/- and the application were actually received in this office on 1-9-1934 and only the revised rate fixed for the current fortnight ending 15-9-1934 is admissible in this case. Mr. Sundaram Iyer says in his letter that the Indian Bank, Ltd, Bangalore, failed to send the bonds to this office even on the 31st August 1934, though it was requested to do so the previous day i.e., on 30-8-34 and that the Bank was also not aware that the rate held good only till 31-8-1934 and that the period of currency of the old rates was very short, practically less than a week, within which many of the holders could not take advantage of these favourable rates and that he does not wish to place his client in an awkward position. Under these circumstances it is for the consideration of Government whether this case may not be treated as a special one and the old rate of cash bonus as current on 31-8-1934 allowed to the broker as a special case in the circumstances explained by him. I solicit early orders of Government in the matter.

There are two more such cases received through Imperial Bank of India, Bangalore, out of which, case for Rs.34,000/- has already been submitted to Government for the grant of a similar concession in this office U.O.Note No.760/S.L. dated 7-9-1934. Even in respect of the other case for Rs.10,100/- the Bank has just intimated today that the owner is not agreeable for the exchange if the old favourable rate is not given to him.

Letter dated 1-9-1934 from Mr. R. Sundram Iyer, Bangalore, to the Comptroller, Government of Mysore, Bangalore.

and, notwithstanding, dated 1-9-1934

Conversion of Halflac 5½% Mysore 1938 into 4% 1953/63.

and, notwithstanding, dated 1-9-1934

Further to my personal interview with your goodself this noon, I beg to confirm the position in writing for your favourable consideration.

and, notwithstanding, dated 1-9-1934

On behalf of my client I requested the Indian Bank on Thursday the 30th August 34, to send halflac 5½% Bonds for conversion into 4% 53/63. The Indian Bank owing to pressure of work on Friday the

31st August, being the last day of the month, and by a little oversight were not able to send the bonds to the Comptroller's office for conversion on that date, though they had the application form filled in on 31-8-34, and the bonds were ready for being sent. Further they were also not aware, that the bonus rates originally advertised for conversion were available only upto 31st August 1934.

I had to leave Bangalore on Friday the 30th August to attend the Railway Advisory Committee meeting at Mysore and I was absent from Bangalore on that date. When I returned to Bangalore on Saturday morning 1-9-34 I understood that the bonds were not sent the previous day. I immediately hurried to your office and enquired at the State Loan Section if these bonds would be accepted at the same bonus rate as was originally advertised for conversion upto 31-8-34. As I was not able to get a satisfactory answer, I immediately sought an interview with your goodself which you were so pleased to grant me and I understood from your goodself that Government orders were expected on the subject and that you would consider my application favourably.

As this was encouraging I tendered my application for conversion with the bonds which you were pleased to accept. In this connection I may be permitted to mention that the time allowed in the notification for conversion is very little, and due publicity of the notification is also very much wanting, besides the application forms being issued rather late. As I have already explained to you,

5½% State Loan Bonds of the face value of Rs.34,000/- which were tendered for conversion to 4% Loan of 1953-63 at the Imperial Bank of India, Bangalore, by some of its clients on 31-8-1934 were received in this office on 1-9-1934. As only the revised rate of cash bonus viz., Rs.3-14-0 had to be allowed in this case according to the rates fixed for the fortnight ending 15-9-1934, the Imperial Bank of India was requested to kindly intimate whether their bonds for Rs.34,000/- may be converted at the revised rates. But the Bank has intimated that the owners of the bonds do not agree to the revised rates of cash bonus. Copy of reply No.363 dated 5-9-1934 from the Bank is herein enclosed for the information of Government.

The Bank has specifically requested in para (3)

of ^{its} ~~their~~ letter that the favourable rate of bonus notified on 23-8-1934 be allowed in this case in view of the fact that these applications for conversion were received by ^{it} ~~them~~ the Government Bankers, on 31-8-1934 alone. It is also not desirable to place the Bank in an awkward position by rejecting the applications of ^{its} ~~their~~ clients and as was already intimated to Government in my U.O.Note No.734/S.L. dated 6-9-1934, the period of currency of the old rates was very short, practically less than a week, within which many of the holders could not take advantage of these favourable rates, I suggest for the consideration of Government that this case also may be kindly treated as a special one and the old rate of cash bonus current on 31-8-1934, allowed under the special circumstances pleaded by the Bank in ^{its} ~~their~~ letter dated 5-9-1934.

4% Conversion Loan 1953-63.

The currency of the rates of cash bonus fixed for the conversion of 6½%, 6¼%, and 5½% Bonds into the above loan sanctioned by Government in U.O.Note Fl.No.970 dated 31-8-1934 will expire on 15-9-1934 and the rates for the subsequent period have to be fixed. We have so far received applications for conversion in the current fortnight to an extent of only Rs.2,80,000/- as against Rs. ~~2,80,000~~ 8,36,000/- in the first 5 days previously. There have also be a few applications for withdrawal from conversion on the revised rates being intimated to the applicants. The revised rates may not therefore be reduced further. We may continue the existing rates till 15-10-1934, as a period of 15 days appears to be not sufficient for the Banks and Brokers to write to their distant clients and get a reply and send the bonds to us in time. If the offer during this interval proves to be not sufficiently good, I think we may have to revert to the previous rates. The present rates are:-

5½% Bonds 1938.	3-14-0

Comptroller's Unofficial Note No. 949 S L dated

Cash Bonus to be allowed for the fortnight
ending 15th October 1934.

When the Conversion operations were commenced,
the rates of Cash Bonus were fixed as follows
up to 31st August 1934 inclusive: ~~£~~

	Rs	A	P
5½% Bonds 1938	4	2	0
6¼% Loan 1940	10	8	0
6½% Loan 1941-51	13	0	0

When the scheme was sanctioned, the understanding was that we should deduct for every fortnight ^{the corresponding difference in interest for that period} Rs 0-1-0, 0-1-6 and 0-1-8, in the case of 5½%, 6¼% and 6½% Bonds respectively, ^{based on} representing the difference in the rates of interest between the old and the new loans.

The rates for the fortnight ending 15th September 1934 were fixed at Rs 3-14-0, 10-7-0 and 12-15-0 for these three loans. The same rates were continued for the fortnight ending 30th September 1934 without any deduction.

The Comptroller states that the same rates may be continued for the fortnight ending 15th October 1934, without any deduction. Though the response is not appreciable, we cannot continue to pay the same rates, without any deduction, and I think a small deduction of at least one anna has to be made.

I therefore suggest that the rates of Cash Bonus for the fortnight ending 15th October 1934 be fixed as follows:--

5½% Bonds 1938	Rs 3-13-0
6¼% Loan 1940	Rs 10-6-0

No actual adjustment in accounts has yet been made for the value of 4% Bonds taken out of the Insurance Fund. As a regular conversion loan is now authorised by Government in their Order No.Fl.3233-G.F 139-34-1 dated 2-10-1934, it is no longer necessary to appropriate bonds from the Insurance Fund. The value of the bonds so far taken out of this fund may also be recouped to the Insurance Fund by treating the exchange of bonds so far effected as original issue by conversion under the scheme now sanctioned, the balance under other loans being correspondingly reduced.

2. 4% Bonds issued in exchange for the cash bonus and interest at the market rates will, however, be treated as issued out of Rs.2,11,500/- worth of bonds borne under "General Investment Account".

3. These proposals will not result in any addition to the total amount of the public debt and are easy to work in actual practice. I request approval of Government for the same.

In our notice dated 5-1-1935 issued to the public regarding the acceptance of our $5\frac{1}{2}\%$ seven year fixed deposit receipts for conversion to 4% Loan 1953-63, the depositors are not given the option of tendering the cash bonus and the interest accrued on their fixed deposits for conversion to the 4% Loan. This concession has, however, been given in the case of $6\frac{1}{2}\%$, $5\frac{1}{2}\%$, $6\frac{1}{4}\%$ Loan Bonds converted to the new loan (vide This office Unofficial Note No. 728/S.L. dated 4/5-9-1934.).

2. As a few depositors are requesting this office to allow this concession, I request early orders of Government, in the matter of accepting the cash bonus and interest for issue of 4% Bonds at the market rates. Such conversions will be a great convenience to the applicants who will have to seek other investments for the cash received from conversion

3. As in the case of bonds, I propose to issue these additional 4% Bonds, in exchange for cash bonus and interest due on $5\frac{1}{2}\%$ Fixed Deposits tendered for conversion, from the stock borne under "General Investment Account" without increasing the public debt.

I request early approval of Government to this proposal.

The Comptroller's proposal may be approved. The additional bonds will be issued at market rates

U.O. Note. 2707/S.L.

Dated: 13th March 1935.

4% Conversion Loan 1953-63

IIIrd Issue.

This conversion loan was floated under the orders of Government on 23-8-1934 and it will be kept open till the 15th of this month (inclusive) as per orders of Government communicated in unofficial note No. 2520/S.L. dated 23-2-1935. The amounts of old loans and 5½% seven year fixed deposit receipts converted upto date are as noted below:-

1. 5½% Loan 1938.	Rs. 27,55,100
2. 6¼% Loan 1940.	5,26,425
3. 6½% Loan 1941-51.	11,100
4. 5½% Seven Year F.D.Rs.	1,07,600

2. In the present trend of the money market the demand for short dated securities is reported by the brokers to be great and the offer for the long term loans to be relatively weak, as there are several sellers of long dated loans. The big block-holders like Banks and business houses are reported to be inclined to invest their holdings in the short medium-dated loans. The conditions are therefore not opportune for keeping open our present conversion offer at the relatively lower rate of cash bonus than the market premium, representing the difference between the 4% and the other short dated securities. The continuance of the arrangement will also have the effect of depressing the value in market of our 4% paper which is not desirable in the interests of our credit, as the analogous 4% of 60-70 of the Government of India will command a higher value relatively.

3. The balances of our loans to be repaid before 1941 are as noted below:-

not necessary because
it cannot be kept for

Against this the nominal value of securities held in the loan Sinking Fund Investment Account on 1-7-1934 is Rs.250,91,100, with a book cost of Rs.2,37,94,088, and if the annual contribution to the Sinking Fund from 1934-35 to 1940-41 is entirely invested, the book value of securities in the loan Sinking Fund Investment Account on 30-6-1941, may be taken to amount to Rs.369,40,000/- nearly. Government of India Securities repayable before 1941 of the nominal value of Rs.207,86,100, as detailed below are now held in the several investment accounts put together.

1. 5% 1939-44.	Rs.95,21,900.	
2. 5½% 1938-40.	62,26,500	
3. 5% 1935.	10,81,600	These will be repaid on 15-9-35. The proceeds may be reinvested in 5½% 1938-40 securities.

4. With the help of these securities and our further investments from now to end of 1940-41 it is considered that there will be no difficulty experienced in arranging to pay off the 5½%, 6½% and the 6½% Loans on the due dates without recourse to further borrowing. We may further improve the position by continuing our present policy of selling the 3½% paper and reinvesting the proceeds in 5½% 1938-40 securities. It would appear advisable to review the situation in the year 1937 with reference to the position of our unfunded debt and the conditions of the money market then and take

Submitted for kind perusal.

The Comptroller states that against Rs 347.35 lakhs, being the balance of our public loans repayable before 1941, the book value of securities in the Sinking fund works up to Rs 237.94 lakhs, and if the annual contribution to the sinking fund from the Revenue account from 1934-35 to 1940-41 at Rs 18.78 lakhs per annum, S.S. is taken into account, the total amount available would be Rs 369.40 lakhs. The note does not take into account Seven year savings bank $5\frac{1}{2}\%$ fixed deposits for about Rs 29 lakhs - maturing in 1939, which are for all practical purposes to be treated like $5\frac{1}{2}\%$ Loan bonds. If the annual contribution to sinking fund is reduced, the amount available would also stand reduced. This conversion scheme ^{may} ~~will~~ not ~~pre-~~ ~~judice~~ affect the value of our securities in the money market. We have been receiving applications for only small amounts.

The scheme may therefore be continued for

some time more.

As the rates are generally fixed a firm price, under present condition of fluctuating rates of securities, proposals for revision can only be submitted to order of govt. generally four to five days in advance as has been done in the present case.

U.O.No.3015/S.L.

Dated: 26th April 1935.

4% Conversion Loan 1953-63.

A

The currency of the cash bonus rates fixed for the conversion of the $6\frac{1}{4}\%$, $6\frac{1}{2}\%$ & $5\frac{1}{2}\%$ Bonds and $5\frac{1}{2}\%$ Seven year savings Bank Fixed Deposits into 4% Loan of 1953-63 sanctioned by Government in Unofficial Note No.2918/SL dated 11-4-1935 will expire on 30-4-1935 and the rates of cash bonus for the subsequent fortnight have to be fixed. The amount of applications received for conversion from 11-4-1935 to 25-4-1935 is only Rs.7,700. The major portion of this amount (viz., 7,500) represents $5\frac{1}{2}\%$ Bonds tendered for conversion whose market rate has since gone down to Rs.107 $\frac{1}{2}$. The market rates of our 4% Conversion Loan 1953-63 and of $6\frac{1}{4}\%$ Loan 1940, have gone down to Rs.105% and 115 $\frac{1}{2}\%$ respectively and there seems to be a tendency for these rates to go down still further. The $5\frac{1}{2}\%$ and $6\frac{1}{2}\%$ Bonds are quoted at 107-5-6 (transaction reported) and ~~119~~ 119. The market is not steady. In these circumstances, I request that the rates of cash bonus, etc, which are placed lower than the last fortnight may be fixed as under till the end of 15-5-1935 when they may be revised in the light of the then conditions. The existing and the proposed rates are:-

	Existing.	Proposed.
1. $5\frac{1}{2}\%$ Bonds 1938.	2-0-0	1-12-0
2. $6\frac{1}{4}\%$ Loan 1940.	9-8-0	9- 6-0
3. $6\frac{1}{2}\%$ Loan 1941-51.	12-0-0	11-14-0
4. $5\frac{1}{2}\%$ Seven years S.B.F.D.R.	1-0-0	0-12-0

(and in addition 0-1-6 for each complete month after 1-11-1938 to date of maturity).

U.O. No. 3157/S.L.

Dated: 11th May 1935.

4% Conversion Loan 1953-63.

The currency of the cash bonus rates fixed for the conversion of the 6 $\frac{1}{4}$ %, 6 $\frac{1}{2}$ % and 5 $\frac{1}{2}$ % Bonds and 5 $\frac{1}{2}$ % Seven year Savings Bank Fixed Deposits into 4% Loan of 1953-63 sanctioned by Government in Unofficial Note No. 3015/S.L. dated 26-4-1935 will expire on 15-5-1935 and the rates of cash bonus for the subsequent fortnight have to be fixed. The amount of applications received for conversion from 26-4-1935 to 10-5-1935 is only Rs. 35,900. The market rates of all long dated loans have for some time gone down more rapidly than either medium or short dated loans. We may therefore continue the existing rates of cash bonus noted below for another fortnight, till the end of May 1935.

Some reduction is necessary, as the extra interest for one fortnight has to be taken into account. The reduced rates suggested may kindly be approved.

No. 3411 /S.L.

Dated: 10th June 1935.

4% Conversion Loan of 1953-63.

The currency of the cash bonus rates fixed for the conversion of the $6\frac{1}{4}\%$, $6\frac{1}{2}\%$, and $5\frac{1}{2}\%$ Bonds and $5\frac{1}{2}\%$ seven year Savings Bank Fixed Deposits into 4% Loan of 1953-63 sanctioned by Government in U.O. Note No. 3287/S.L. dated 27-5-1935 will expire on 15-6-1935 and the rates of cash bonus for the subsequent fortnight have to be fixed. The amount of applications received for conversion from 28-5-1935 to 10-6-1935 is Rs. 10,49,300/-. But this includes an application for the conversion of a call deposit of Rs. 10,23,000/- subscribed for by the Kadir District Board and accepted by Government as a special case and the amount received from private parties will therefore be only Rs. 26,300/-.

2. I invite kind reference in this connection to my U.O. Note No. 3405 /S.L. dated 8-6-1935 suggesting to offer for conversion the above bonds into $3\frac{1}{2}\%$ Loan of 1951-58 for the reasons stated therein and await orders of Government thereon.

3. In case that the above proposal is either not sanctioned or the conversion into 4% Loan now continuing is not stopped by Government, then the rates of cash bonus for the subsequent fortnight ending 30-6-1935 may kindly be fixed as follows:-

	Existing rates.	Proposed rates
1. $5\frac{1}{2}\%$ Bonds 1938.	1-10-0.	1-9-0
2. $6\frac{1}{4}\%$ Loan 1940.	9-4-0	9-3-0
